Objective

An aspiring Software Engineer enhancing my skills in Java, C++, Python, JavaScript, and related technologies, while seeking to gain more experience.

Education

Third Year Student of Bachelor of Science in Software Engineering
Adama Science and Technology University, Adama, Ethiopia
(Expected Graduation Date: June, 2026)

Skills

- Proficient in Java with knowledge of advanced concepts including Servlets, Socket, and RMI

- Comfortable with C++, capable of coding various OOP concepts and completing simpler projects

- Experienced in Python, with expertise in Data Structures and Algorithms, including linked lists, arrays, stacks, queues, sorting, and searching; proficient in Django backend frameworks

- Knowledgeable in JavaScript, capable of adding functionalities to HTML and CSS static front-ends.

- Familiar with HTML, CSS, and SQL (MySQL and PostgreSQL)

Projects

- **Beginner**
  It has no been long since I started my software engineering journey so I have not been able to participate or make projects yet.

Extracurricular Activities

- Participated in coding competitions and hackathons, honing problem-solving skills and teamwork abilities.

Languages

- English (Fluent), Amharic (Native)

Hobbies

Playing Basketball, Talking with my Peers and Gaming.

Soft skills

- Good communication skills

- Great team work

- Effective time management
